

Test Report

Date :2017-03-21

Page 1 of 4

No. : DT137011

Applicant (SHL026) : KBT LTD
Carlton Business Centre 132 Saltley Road Birmingham B7 4TH
United Kingdom

Supplier : SHANG HAI LUCKY HORSE TEXTILE TRADING CO.,LIMITED

ROOM 1005,UNIT 3,BUILDING 12,WAN DA ZHONG XIN MING
ZHAI · KE QIAO DISTRICT,SHAO XING CITY,ZHE JIANG
PROVINCE,CHIINA

Description of Sample(s) : One(1) style of submitted sample(s) said to be :
INFR PP speaker and pannel fabric
Sample A:Fabric (Black)
Sample B: Foam (White)
End Use: Seating, decorative fabric,etc
(See the attached photo)
Country of Origin: China

Date sample(s) Received : 2017-03-15

Date Tested : 2017-03-15 to 2017-03-20

Investigation(s) Requested : Selected test(s) as detailed herein.

Conclusion(s) : The submitted sample(s) complied when tested with ignition source 5 of
BS 5852:2006, clause 11.

The filling material for this test shall be a foam which passes the ignitability test in part1 of schehule1 and has density of 24-26kg per m³ as client request.

TEST RESULT(S):

Methods of test for assessment of the ignitability of upholstered seating by smouldering and flaming ignition sources (BS 5852:2006)

Sample : A+B (in composite)
 Ignition Source : Wooden crib: source 5
 Condition of test specimen : A minimum of 24 hours at 23 ± 2°C and 15 - 80% R.H.
 Test Condition : Temperature: 24°C,
 Relative humidity: 65%

The following test results relate only to the ignitability of the combination of upholstery composites under the particular conditions of test stated; they are not intended as a means of assessing the full potential fire hazard of the materials or products in use.

Test Result:

Ignitability performance index : BS 5852:2006 Clause 11 NI/5(Pass).

See summary below:

Criteria of ignition

| <u>Progressive smouldering ignition</u> | <u>1st test</u> | <u>2nd test</u> |
|---|-----------------------------------|-----------------------------------|
| a) any test specimen that displays escalating smouldering combustion behaviour so that it is unsafe to continue the test and forcible extinction is required; | N.O. | N.O. |
| b) for the smouldering cigarette source 0: any test specimen that produces externally detectable amounts of smoke, heat or glowing within the period from the extinction of the source until 60 min after placement of the source. | N.O. | N.O. |
| c) for all flaming ignition sources: any test specimen that smoulders until it is essentially consumed or that smoulders to the extremities of the specimen, i.e. to either side or to/through the full thickness of the specimen, within the duration of the test; | N.O. | N.O. |
| d) for flaming ignition sources 2 and 3: any test specimen that produces externally detectable amounts of smoke, heat or glowing 15min after removal of the burner tube; | N.A. | N.A. |
| e) for flaming ignition sources 4, 5, 6 and 7: any test specimen that produces externally detectable amounts of smoke, heat or glowing 60 min after ignition of the crib; | N.O. | N.O. |
| f) any test specimen that, on final examination, shows evidence of charring within the filling (other than discolouration) more than 100 mm in any direction, apart from upwards, from the nearest part of the original position of the source. | N.O. | N.O. |

TEST RESULT(S):

| Flaming ignition | <u>1st test</u> | <u>2nd test</u> |
|---|-----------------------------------|-----------------------------------|
| a) any test specimen that displays escalating flaming combustion behaviour so that it is unsafe to continue the test and forcible extinction is required. | N.O. | N.O. |
| b) any test specimen that burns until it is essentially consumed within the test duration. | N.O. | N.O. |
| c) any test specimen on which any flame front reaches the extremities of the specimen other than the top of the vertical part of the test specimen, or passes through the full thickness of the specimen within the duration of the test. | N.O. | N.O. |
| d) for flaming ignition sources 2 and 3: any test specimen that continues to flame for more than 120 s after removal of the burner tube or in which the flame front spreads past a vertical line 100 mm from the tip of the burner tube; | N.A. | N.A. |
| e) for flaming ignition sources 4 and 5: any test specimen that continues to flame for more than 10 min after ignition of the crib; | N.O. | N.O. |
| f) for flaming ignition sources 6 and 7: any test specimen that continues to flame for more than 13 min after ignition of the crib; | N.A. | N.A. |
| g) for all sources: any test specimen from which flaming debris causes an isolated floor fire that continues to flame for longer than the time given in d), e) or f) | N.O. | N.O. |

Note: The flame cease for 4 minutes 46 seconds for 1st test and 4 minutes 22 seconds for 2nd test.

- Remark:
- 1) O. denotes Observed
 - 2) N.A. denotes Not applicable
 - 3) Water-soaking procedure was conducted for covering material in accordance with BS 5852:2006, Annex E.
 - 4) The ignitability performance of a test specimen shall be designated by the number of the clause of BS 5852:2006 together with the ignition source to which the test specimen was subjected preceded by the letters 'NI' if the specimen did not ignite or by the letter 'I' if it did ignite.

For Conditions of issuance of this test report, please refer to "Conditions of Issuance of Test Reports" section or Website.

Conditions of Issuance of Test Reports

1. All samples and goods are accepted by The STC (Dongguan) Company Limited (the "Company") solely for testing and reporting in accordance with the following terms and conditions. The Company provides its services on the basis that such terms and conditions constitute express agreement between the Company and any person, firm or company requesting its services (the "Clients").
2. Any report issued by the Company as a result of this application for testing service (the "Report") shall be issued in confidence to the Clients and the Report will be strictly treated as such by the Company. It may not be reproduced either in its entirety or in part and it may not be used for advertising or other unauthorized purposes without the written consent of the Company. The Clients to whom the Report is issued may, however, show or send it, or a certified copy thereof prepared by the Company to his customer, supplier or other persons directly concerned. The Company will not, without the consent of the Clients, enter into any discussion or correspondence with any third party concerning the contents of the Report, unless required by the relevant governmental authorities, laws or court orders.
3. The Company shall not be called or be liable to be called to give evidence or testimony on the Report in a court of law without its prior written consent, unless required by the relevant governmental authorities, laws or court orders.
4. The Report refers only to the sample tested and does not apply to the bulk, unless the sampling has been carried out by the Company and is stated as such in the Report.
5. In the event of the improper use the report as determined by the Company, the Company reserves the right to withdraw it, and to adopt any other additional remedies which may be appropriate.
6. Sample submitted for testing are accepted on the understanding that the Report issued cannot form the basis of, or be the instrument for, any legal action against the Company.
7. The Company will not be liable for or accept responsibility for any loss or damage howsoever arising from the use of information contained in any of its Reports or in any communication whatsoever about its said tests or investigations.
8. Clients wishing to use the Report in court proceedings or arbitration shall inform the Company to that effect prior to submitting the sample for testing.
9. Subject to the variable length of retention time for test data and report stored hereinto as to otherwise specifically required by individual accreditation authorities, the Company will only keep the supporting test data and information of this test report for a period of three years. The data and information will be disposed of after the aforementioned retention period has elapsed. Under no circumstances shall we provide any data and information which has been disposed of after the retention period. Under no circumstances shall we be liable for damages of any kind, including (but not limited to) compensatory damages, lost profits, lost data, or any form of special, incidental, indirect, consequential or punitive damages of any kind, whether based on breach of contract of warranty, tort (including negligence), product liability or otherwise, even if we are informed in advance of the possibility of such damages.
10. Issuance records of the Report are available on the internet at dgstc@dgstc.org. Further enquiry of validity or verification of the Reports should be addressed to the Company.
