Description:

This stretch lace is interwoven with iridescent thread which catches the light in classic iridescent pale green and pink shades, depending on the light, or if the fabric is in front of a dark or light background the look will be different ever changing.

The mermaid shimmer green contrasts beautifully with the candy floss pearly pink colour, this fabric would look so very pretty as a circle skirt or even a more ornate formal dress for brides or bridesmaids.

Perfect for festival dancing, every move you make will catch the fabric at a different angle making it shine in its range of iridescent shades, try making an oversized T Shirt dress to throw over vest tops and swim wear. This lace fabric also comes in a stunning black option, because of the darker tone, the iridescent thread picks up the green/gold/coral iridescent shades woven into the fabric.
