Description:

They could be cat prints, a dog's or possibly a fox's. Even if the culprits remain a mystery this charming paw print fleece is clearly a great design. Available in three options, a black background with ivory paws an ivory with black paws and dark chocolate brown with beige pawprints. The paw prints measure 5 cm widths and are places at random intervals all over the fleece fabric. A great design for animal lovers and for the animals themselves. Fleece is the perfect fabric for pet bedding and coats for pets of all sizes, we sell fabrics for pet uses as small as rat hammocks to equestrian coats!

- Paw print print!
- Black or ivory options
- Soft fleece fun fabric
- For pet bedding and coats

Winter fleece fabrics are a popular choice for a wide range of items due to their soft and cosy feel. One type of fleece fabric is micro fleece, which is known for its warmth and lightweight properties. This makes it ideal for a variety of items such as apparel, clothing, athletic wear, throws, blankets, hoodies, hats, scarves, sweat shirts, jackets, outdoor clothing, baby blankets, sofa throws, pet clothing, pet bedding, and toys.

Micro fleece fabric is made by bonding polyester fibres together, which creates a fabric that is both warm and lightweight. This makes it a great choice for items that need to be worn or used in cold weather, as it will help to keep the wearer or user warm without adding extra bulk or weight.

Another advantage of micro fleece fabric is its durability. It is resistant to pilling and has good abrasion resistance, making it a good choice for items that will be frequently used or washed. Additionally, it dries

quickly and is easy to care for, making it a convenient choice for everyday use.

In terms of apparel, micro fleece fabric is popular in making jackets, hoodies, and sweaters. It is also used to make outdoor clothing like gloves, hats, and scarves, as well as athletic wear like sweat shirts and pants. Micro fleece fabric is also great for making blankets, throws, and baby blankets. The fabric is also great for pet clothing, pet bedding and pet toys.

Overall, winter fleece fabrics like micro fleece are a popular choice due to their soft and cosy feel, warmth, and durability. They are ideal for a wide range of items, making them a versatile choice for cold weather gear.
