Product code: KBT9770-F152-U24
Selected Colour: **Neptune Blue**
Width: 200 cm
Price: £15.99/mtr

Description:

Ridged Coach trim is one of three new vehicle Trim products we have added to our vehicle fabric range. Ridged Coach Trim is made from the same durable material as the plain Trim Velour Car Trim, but with a slightly different appearance. The fibres are looped in neat lines to make a corrugated effect, rather than a flat surface. Car Trim is not only used for flooring in coaches, busses, cars, lorries and vans, but is popular in schools, industrial workplaces and offices too. It offers an affordable and robust alternative to carpet and is especially useful where there is constant footfall.

The Ridged Coach Trim measures 4 mm in thickness, with the top of the material showing a raised corrugated surface and underneath a flatter finish that still follows the imprint of the ridges. You could use either side of the material, or use similar shades of the plain or soft variety. And to make it even more useful, we have a self adhesive version too, only in Graphite.

- 100% Polyester
- Flooring Material
- Heavy duty use
- 4mm thick
- Three varieties
- Vehicle flooring
