Spacer Fabric

Available Colours:
- Black
- Chocolate
- White

Product code: KBT8608-B135-2
Selected Colour: Black
Width: 150cm
Price: £7.99/mtr

Description:
Spacer fabric uses a microfilament yarn between two fabrics which creates a breathable "microclimate" between the layers making heat and vapour easy to pass through.

Ideal for
- Backpacks
- Car seats
- Cushioning

This fabric has naturally ventilating properties.

Used for a wide variety of applications.

Ideal to place underneath heavy objects at rest to stop scratching of the under-surface. For example, a heavy sewing machine on a polished table placed on a mat of spacer fabric will not scratch the table.
