

Spacer Fabric

Available Colours:

Black

Grey

White

Purple

Light Blue

Product code: KBT8608-B135-2
Selected Colour: **Black**
Width: 150cm
Price: £11.99/mtr

Description:

Spacer fabric uses a microfilament yarn between two fabrics which creates a breathable "microclimate" between the layers making heat and vapour easy to pass through.

Ideal for

- Backpacks
- Car seats
- Cushioning
- Thickness: 3mm

This fabric has naturally ventilating properties.

Used for a wide variety of applications.

Ideal to place underneath heavy objects at rest to stop scratching of the under-surface. For example, a heavy sewing machine on a polished table placed on a mat of spacer fabric will not scratch the table.
