Teal

White

Product code: KBT8608 (135/2)
Selected Colour: **Black**
Width: 150cm
Price: £5.99/mtr

Description:

Spacer fabric uses a microfilament yarn between two fabrics which creates a breathable "microclimate" between the layers. Heat and vapour are allowed to leave the body.

Ideal for backpacks, car seat cushions, bras, etc.

This fabric has naturally ventilating properties.

Used for a wide variety of applications.

Ideal to place underneath heavy objects at rest to stop scratching of the undersurface. For example, a heavy sewing machine on a polished table placed on a mat of spacer fabric will not scratch the table.
