Product code: KBT9028-F132-B400
Selected Colour: **Tree Leaf**
Width: 148cm
Price: £11.99/mtr

Description:

Micro fleece soft dry waterproof and breathable fabric. Super soft micro fleece on one side and a smooth water resistant fabric on the other. The smooth water repellent side uses a teflon coated finish to keep the rain at bay. You can use the fabric any way you want, even make a fully reversible jacket. Have the fleece fabric inside for extra cosyness or on the outside. The micro fleece also holds a small four way stretch which is handy for outdoor activities where you have to keep your body moving. If you want to know a little more on this clever fabric, click here for our [Soft and Dry Microfleece Blog....](#)
