Description:

This fabulous fleece print has a very 70s look about and would look great as part of a retro inspired design. The pink elephants, accompanied with their slightly smaller green aardvark friends are both decorated in circle patterns of dark blue, yellow, leaf green and dark pink. The pink and green chums are repeated all over the fabric facing each other and surrounded with funky circular patterns. The elephants measure 13.5 cm and 8cm in height and their aardvark friends the same width but just a little shorter at 6cm tall.
