Available Colours:

Iridescent

Product code: KBT9448-B478-1
Selected Colour: **Iridescent**
Width: 145 cm
Price: £8.99/mtr

Description:

The patterned black lace is interwoven with iridescent thread which catches the light in iridescent shades of green/ gold and coral depending on the light. The iridescent colours constantly change with the movement of the fabric and how the light catches the iridescent detail. The black sparkle lace carries a metallic almost luminescent multi tone shimmer woven throughout the black stretch lace. The way the iridescent thread works with the black fabric causes a deeper colour change resulting in a mermaid look green to gold combination that looks absolutely stunning.

Perfect for festival dancing, oversized T Shirts, long dresses or little circle skirts. Every move you make will catch the fabric at a different angle making it shine in its range of iridescent shades. We also have an Iridescent ivory option with a lighter pink to green colour change which looks awesome for summer partying.

- Iridescent colour change fabric
- Stretch Lace fabric
- Mermaid look sparkle fabric
- Festival sparkle fabric
