Price: £16.99/mtr

Description:

Conway Jumbo Corduroy Fabric

Create cosy rooms to relax in with our new Conway Jumbo cord fabric. This top quality upholstery fabric is luxuriously soft to the touch, making it ideal for comfy armchairs and sofas. The fabric is designed in neat rows measuring 1 cm and half a cm.

The larger of the rows has a fuller pile and the smaller is closer napped, both combine to give a pleasing tactile experience. Fire retardant to British Safety Standards, you can safely use Jumbo Cord in your home or for your business. Having the fire retardant status means this fabric can be used to upholster furnishings in all public spaces such as hotels, restaurants, pubs and coffee shops.

The chunky look of Conway Jumbo Cord not only works with contemporary decor, but traditional too.

The twelve colour ways create a classic collection that ranges from pale to deep shades. There are several soft neutral shades to choose from, great for light and airy living rooms. Jumbo cord makes a great addition to the contemporary trend of multi tactile interior designs. Mix with, similar shades but vary the feel of the fabric. Try mixing jumbo cord with cotton canvas, faux suede, or quality faux fur to get the tactile textures look.

- Fire retardant
- Neutral shades
- Soft feel
- Contemporary style
- Hotels, cafes and restaurants
- Upholstery fabric
