Description:

New to our wool and suiting ranges, Panama wool blend is a very high quality dressmaking fabric. Woolen Panama has a very different feel from its well known partner, woolen wool, and therefore has different uses. Whilst woolen wool is thick, dense and fluffy in texture, panama is sleek and flat. Panama wool is popular with smart tailored suits, graduation gowns and lightweight jackets. The fabric has a beautiful drape, this makes it ideal for the flowing graduation gowns, or full length skirts.

The natural breathable quality of Panama Wool makes a great match with lightweight jackets for warmer days. The fabric will create a layer of warmth whilst the air can circulate through the fabric. Panama is easy to cut and stitch, with no stretch at all and a taut sleek finish, pattern making will be straight forward. Available in a deep Burgundy colour, a classic shade that will easily mix with deep tones of bottle green, navy, mustard or russet for an autumnal feel. Or team with cream or dusky pink for a lighter look.
