| Product code: | KBT9790 |
| Selected Colour: | Green/Gold |
| Width: | 140 cm |
| Price: | £18.99/mtr |

Description:

We are pleased to welcome a new glitter display fabric to our collection. Unlike the other block colours we have, this glitter fabric uses a mix of soft gold and green shades to create a unique effect. The glitter size is a blend of large and chunky, so it hits the light at every possible angle. The glitter is solidly pressed onto a heavy black drill canvas backing. The backing will work with spray glue or stronger varieties if you plan to attach it to walls. Staple gunning the fabric is another method of attachment and you could always use both methods so make sure it stays strong. Tough as it is, you can still cut up the fabric with sharp scissors. If you need to cut large pieces for visual merchandising props or tiny pieces for craft and decorations, good scissors will do the trick.

- Mixed glitter fabric
- Green / Gold
- Christmas glitter fabric
- Visual merchandising glitter
- Stage Glitter
- Craft Glitter
