Description:

Two Colour Neoprene is used in a wide variety of applications, such as wet suits, laptop sleeves, camera bags, orthopedic braces(wrist, knee, etc), electrical insulation, fishing waders, fashion items, pants and jackets, swimwear etc.

This fabric is soft with great thermal insulation properties. Available in a range of striking colours. Click here for our [Neoprene Blog](#).

This item is the same as [KBT6984 - Neoprene Water Resistant Fabric](#) The only difference is it has been laminated with a different coloured face fabric on one side.

- Water resistant
- Polyester and Spandex
- Middle layer SBR(Styrene Butadiene Rubber)
- 2mm thick
- Middle layer: (SBR) 1.6mm
- Two Colour Laminated Fabric sides

Please Note Because Neoprene is used for scuba diving it often gets confused with Scuba

fabric. These two fabrics are very different in structure and qualities, please click here for [Scuba Fabric](#).

This fabric is not suitable for deep sea diving.
