Description:

An unusual woven fabric with both an abstract watercolor multi coloured pattern, and a neat repeated pattern in the textured weave. The background coloured pattern looks like it could be floral or leaf shapes as there are soft outlines depicting this. Muted shades of dusky pink, pale blue, gold, sand and auburn orange merge into each other like spreading water colours in a painting. This background is woven with a high luster thread, whilst the pattern is woven with a contrasting matte thread.
