Description:

Canvas style upholstery fabric in a soft mid purple shade. This taut, non stretch fabric is ideal for sturdy seating. The durability of the fabric means you will get years of use from it, so dining chairs, and cafe seating are the ideal situations to use this. The shade of purple is not too bright, rather like a soft mid purple that will go with many lighter and darker shades. The fabric has two sides to use, one has a tougher feel and the other has a brushed effect, making it softer to the touch. Ideal if you want durable seating for your pub, cafe or home.

- Purple upholstery fabric
