

Green Upholstery Fabric Collection

Available Colours:

Sage Green

Smokey Green

Product code: KBT9867-U26
Selected Colour: Sage Green
Width: 150 cm
Price: £11.99/mtr

Description:

Sage Green Textured - upholstery fabric in a soft sage green colour. The fabric has been produced in a similar way to velour and velvet, but with a slightly different finish. Instead of a smooth surface, tiny gathers of the brushed thread have been tufted to achieve a textured look. The fabric is still soft to the touch, making it a good choice for upholstering sofas and armchairs. Although its tough, the sage green fabric is light enough to use for soft furnishings too. The back of the fabric is coated to give it extra strength and durability, so you can be sure the fabric will last a long time

Smokey Green Velour - Sleek and shiny polyester velour fabric in a dark smokey green tone. The pile of the fabric faces one direction to create a sleek feel finish. The velour is produced from a soft thread with a reflective sheen. This adds depth when light hits the fabric adding deep shadows and highlights. The fabric is taut with no stretch so is ideal for upholstery and soft furnishings use.

- Sage green upholstery fabric
- For seating and soft furnishings
- Textured look upholstery fabric
- Plain green upholstery fabric
