Description:

Oatmeal cream fabric with a woven speckled design throughout. The thread used for this fabric has a soft lustre which shows in the smooth finish. The design is woven using oat cream and dusky pink yarn to create a gentle speckled effect. The main colour is the oat cream with the dusky pink woven through in a fine non uniform design. The size of the pink speckles vary from one tiny stitch to clusters of about 20 stitches. The stitches are so small you cannot see the detail until very close up. So the look of the fabric when viewed in a room is a softly speckled rich cream with dusky pink accents. This fabric would look lovely as heavy drapes, cushions and seat pads in a neutral themed interior.
