Description:

Upholstery fabric with an ornate design of wide panels. The panels show a different interweaving pattern in each, ranging from the thinnest at 1.5 cm to the widest at 14.5 cm across. The design is set in shades of oat, beige, clay and sage green. If you are looking for a pattern with a touch of colour to add to your neutral interior, this would complement a pale neutral colour scheme.

The pale shades work with neutral interiors in the home, hotels and restaurants. The design has quite a grand style about it, with the paler shades giving it a softened look. This fabric would work well in light and airy spaces. Conservatory furnishings for dining chairs, curtains or blinds or table panels.
