Description:

Extra thick, heavy weight upholstery fabric in a floral cross stitch style. When creating actual cross stitch, a bulky almost digital look appears, this is because of the cuboid style of the stitch. Although fine thread is used to create this fabric, it is designed in a way to depict the charm of traditional cross stitch method.

The gentle muted colour palate uses a soft buttermilk cream as the background colour with accents of cappuccino. Flowers, leaves and dashes make up the content of the design in shades of dusky pink, sage green grey and blue. The large floral pattern shows a display of large flowers between 15 and 19 cm wide, with stems of leaves about 20 cm long. The design also uses tiny rectangles as dashes and stacked together to create block pattern and detail.
