Description:

Camouflage print with a bit of a twist from the traditional green pattern, a fun design printed onto super soft fleece fabric. This stylised version of camo print uses overlapping splodges of colour to create a print ideal for younger children's clothing. This pattern would also look great as fun onesies, cosy dressing gowns and lounge wear for adults.

The purple option uses a deep purple with magenta pink as the main colours, mixed in with black and white to make the for the curvy camo splodges. The red option uses a bright red for the main colour, with grey, cream and black for additional shades.
