

Stripe Dirt-Resistant Awning Canvas

Product code: KBT12432-U151
Selected Colour: **Lavender Block Stripe**
Width: 120
Price: £21.99/mtr

Available Colours:

Description:

These awning fabrics are **100% solution dyed acrylic canvas**, designed to meet outdoor standards based on quality manufacturing processes and materials.

This **Awning Stripe Collection** is a range of technical textiles.

The solution-dyed acrylic fibres and outdoor treatment give exceptional long-term colour fastness giving it resistance to colour fading, tearing, water damage and dirt. Ideal to use for awnings and canopies as these materials provide solar protection.

Designed for use in homes, outdoor events and activities, businesses; these innovative designer fabrics adapt to any space.

Recommended uses and applications:

- Folding-arm awnings

- Drop-arm awnings
- Dutch canopies
- Fixed awnings
- Outdoor velum
- Shade sails
- Umbrella
- Vertical roll-down awnings
- Screen fabrics

With this awning collection you receive many different beneficial factors.

Protection as it reduces glare and heat by up to 95% by limiting the greenhouse effect, blocking out 90% to 100% of UV rays (depending on the colour).

Resistance is from the solution-dyed acrylic yarn that these fabrics are made from, providing long-lasting resistance to environmental damage (rain and UV rays). They are fully water-repellent, also preventing mould growth.

Durability from the high-performance fibres they are made up of, as well as treatments and their weaving process.

Environmental standards making it **eco-friendly**; they are **tested and approved by OEKO-TEX 100**. This certification takes harmful substances into account by checking whether the fabric is not harmful in ecological and human terms.

Technical textile properties:

- Longevity
- Colour fading resistance
- Anti-tear
- Stain resistant
- Protection from UV rays
- Durability
- Environmentally friendly
- Finish: Cleangard special dirt-resistant and water resistant treatment
- Easy care

Tip: Dark awning fabrics provide better protection from the heat, light and UV rays.

Lighter colours are less effective for heat and UV ray control but allow more light through.

Cleaning & Care tips:

- Remove superficial stains - clean with soapy water (*it is not recommended to use detergents, high-pressure cleaners, or hours of rubbing*)
- Avoid mould - at the end of summer take time to dry your awning before rolling it away
