Pre-slit spacer fabric

• Width: 150mm • Thickness: 3mm

Pre-Slit down 150mm wide, ideal for use as a narrow band, perfect for creating protection for long length products.

Spacer fabric a lightweight microfilament yarn is sandwiched between two layers creating a breathable layer which allows heat and vapour pass.

Works well for cushion effect, health application, sports clothing as well as bags, suit case, laptop carry cases and protection for other electronic devices.
