Price: £14.99/mtr

Description:

Our Quilted 3D Ribbed spacer fabric is an ideal choice for airy padding because of its unique construction and properties. The fabric is made up of layers of mesh-like material that create a three-dimensional structure. This structure allows air to flow freely through the fabric, providing excellent breathability and ventilation. This makes it perfect for use in padding that needs to be lightweight, breathable, and comfortable.

Unlike traditional padding materials, our 3D ribbed spacer fabric is incredibly lightweight and flexible. It can be easily cut and shaped to fit any desired size or shape, making it perfect for use in a variety of applications. Additionally, the unique construction of the fabric means that it compresses easily, making it perfect for use in items where space is limited.

our quilted spacer perfect choice for airy padding because of its unique properties and construction. It is lightweight, breathable, and comfortable, and can be easily cut and shaped to fit any desired size or shape. Whether you need airy padding for clothing, furniture, or other applications, our 3D ribbed spacer fabric is the perfect choice.
