Price: £74.99/mtr

Description:

- Fabric Front & Back Wide Spacer with FR

100% polyester

Our high quality fabric is designed to absorb high-impact shots, The hard-wearing fabric to ensure the best performance and screen durability. Very easy to install and provides a snug fit. It allows for clear and sharp visuals, maintaining the realism of the golf simulation. The fabric is durable and able to withstand repeated impacts from golf balls. High-quality materials ensure a longer lifespan for the spacer fabric. With fire-retardant properties this fabric is designed to reduce the risk of fire hazards in a golf simulator setup. This feature is particularly important in indoor spaces where electronic equipment, such as projectors and lighting, is commonly used in conjunction with golf simulators.

Ideal for home, commercial and large scale event use
