Description:

- Very high quality upholstery fabric created on a Jacquard loom. The main colour is a soft mid blue created using two different shades. The second bulk of the colour is a pale yellow gold, also created using two shades of thread. The smart pattern is very similar in structure to a tartan, though there is floral and scrolled motifs in the weave. The overlapping thick and thin lines create the tartan look, using more shades of green, red, and teal with some small parts in an ombre effect.
