## Waterproof Pvc Fabric

### Available Colours:

Brown

Product code: KBT13872-B165  
**Selected Colour:** **Brown**  
Width: 140cm  
Price: £5.99/mtr

### Description:

Heavy-duty waterproof PVC fabric is a robust, durable material made from high-quality polyvinyl chloride (PVC) that offers superior resistance to water, abrasion, and harsh environmental conditions. This fabric is specially designed for demanding applications, providing a reliable barrier against moisture, dirt, and UV rays. The PVC coating makes the fabric completely waterproof, ensuring it stays dry even in the heaviest rain or wet conditions. Ideal for use in industries such as outdoor gear, tarps, tents, truck covers, and protective sheeting, this fabric is known for its long-lasting strength, flexibility, and resistance to wear and tear, making it a top choice for both commercial and personal use.
