Fire Retardant Synthetic Fabric

Available Colours:

Product code:	KBT2496-F64-B145		
Selected Colour:	Black	Black	White
Width:	150cm		
Price:	£4.25/mtr		
Bulk Purchase:			
Roll Length:	100 mtrs		
Roll Price:	2.75/mtr		

Description:

This is one of our **synthetic fire retardant fabrics**; with the FR specification it can resist a fire from spreading, particularly over the outer walls of high-rise buildings.

It is a **100% Polypropylene nonwoven fabric**, making it strong but also lightweight.

A great budget fabric for covering unsightly areas, wall coverings, use on ceilings, stage backdrops.

This fabric can be useful in many different ways:

- Construction
- Furniture trade
- Carpet Making
- *Ideal for lightweight curtains with great thermal properties, blocking out drafts.*
- Displays
- Backdrops
- Stage sets
- Exhibition stands
- School halls, colleges, universities

- Partition areas
- Medical Trade (face masks)
- Filtration
- Agriculture

Excellent weed control properties, ideal material for gardeners as a weed membrane.

This fabric is Fire retardant to British Standards BS5852 (1979).

This material was tested according to BS5852: Part 1 : 1979 Methods of test for the ignitability by smokers, materials of upholstered composites for seating.

It is ideal to use non-flammable fabrics like this one in a building as it:

- Slows down the flame, or even causes the fire to self-extinguish, therefore limiting the spread
- Minimises the build-up of heat which again will prevent the fire rapidly developing

Available in black or white.
