Description:

We have an **all-over pattern** repeat design of **Union Jack flags**.

These are printed on a **silky satin fabric**, giving the fabric a lot of movement and easy to handle.

It is an extremely lightweight fabric, thin enough for a large amount of light to shine through the flags that are printed on the fabric.

This is a material which would easily flutter in the wind, and when it does, you see glimmers of light as it moves.

These properties make it perfect for:

- Banners
- Flags
- Bunting

For any craft lovers, this material is ideal to use for making patriotic products or to use in textile workshops.
