- Foam Thickness: 2mm
- Construction: Weft knit
- Composition:100% Polyester
- Origin: Europe

Our headlining fabric is the same premium material used by major vehicle manufacturers, ensuring a professional finish for your projects. It is ideal for a wide range of vehicles, including BMW, Ford, Audi, Mercedes, Volkswagen, Vauxhall, camper vans, motor homes, and more.

We understand the importance of using top-notch materials for your vehicle's interior, which is why this headlining fabric is specifically engineered to meet the high standards of today's automotive industry. The foam backing provides added durability and a superior look, making it a popular choice for both professional and DIY applications.

One of the standout features of this car headlining fabric is its versatility. Whether you're working on a car, boat, caravan, or even a horse-box, this fabric will provide a seamless and stylish finish. It is perfect for replacing old or worn-out headliners, giving your vehicle a fresh, modern look. Additionally, it can be used for custom interior projects, allowing you to create a unique and personalized space.

The fabric is available in a range of colours to match the interior of your vehicle, ensuring a cohesive and polished appearance. Its high-quality construction means it is resistant to sagging, fraying, and other common issues associated with inferior headlining materials.

To complement this headlining fabric, we offer a specially formulated high temperature spray adhesive. This adhesive is designed to work seamlessly with our fabric, providing a strong and lasting bond. It is easy to use and ensures that your headlining fabric stays securely in place, even in challenging conditions.

Using the right spray adhesive, you can achieve a professional finish without the need for specialized tools or equipment. Simply apply the adhesive to both the fabric and the surface, wait for it to become tacky, and then press the fabric into place. The result is a smooth, wrinkle-free headliner that looks and feels like it was installed by a professional.

Upgrade your vehicle's interior with our premium headlining fabric and enjoy a fresh, modern look that will last for years to come.
