Description:

The width of this knitted tubular fabric laying flat measures at 50cm, so the circumference is 100 cm. The knitted fabric has plenty of stretch across the width so will generously stretch over the full 100 cm. Ideal for large slip on covers for canoes and kayaks. The stretch quality makes it useful for fashion and sportswear clothing too. Find out more about our handy tubular fabric range, check out our [Totally Tubular Blog...](#)
