Price: £14.99/mtr

Bulk Purchase:

Roll Length: 30 mtrs

Roll Price: 10.99/mtr

Description:

KBT waterproof canvas is available in a range of 13 colour choices. All colours have a weight of 12oz per square meter / 340g per square metre and a width of 182cm. The coloured canvas is made from 100% cotton to form a traditional cotton duck canvas which has then been treated to make it water repellent and ready for tough outdoor jobs.

The structure of the canvas is taut, allowing for no stretch at which is a good advantage for the robust uses this fabric is popular with, yet still easily manageable and can be cut and stitched into a number of traditional outdoor items.

Coloured canvas is ideal for creating all kinds of outdoor spaces for all kinds of events. Classically used for traditional tents, yurts and tepees this fabric comes in 13 colours to choose from so we can also cater for events such as weddings and parties that need marquees and awnings in a particular colour scheme, but please note this is not UV stable so the colours will eventually start to fade in prolonged sunshine.

With our made to measure service, we can create the ideal outdoor space for your event and will add any necessities you need from clear panels and windows to brass eyelets for rope and bungee elastic. Give our team a call to discuss any ideas you have.
