Price: £14.99/mtr

Bulk Purchase:

Roll Length: 50 mtrs

Roll Price: 10.99/mtr

Description:

Speaker panel fabric, an open weave construction ideal for sound acoustic qualities, allows the sound to pass transparently through the fabric.

Works well with speakers and bass traps. This fabric is also a popular choice for covering panels, partitions, pin boards and notice boards.

Cleaning is easy using a standard domestic vacuum or wipe clean with a damp cloth. For a deep clean a suitable upholstery shampoo can be applied, regular cleaning will give the fabric a fresh clean appearance. For more info on this fabric, click on our
