Product code: KBT6646-F10-B163
Selected Colour: **Black**
Width: 146cm
Price: £8.99/mtr

Description:

From the practical to the creative, the uses for this great quality coloured canvas are as many as they are varied. The cotton duck canvas has a taut structure and rigid feel whilst still being pliable enough to get creative with. The versatility of this canvas makes it a popular choice with infant to senior schools, creative studies, textiles, arts and crafts and drama will have plenty of uses for this fabric. The dense surface lends itself well to artistic projects; it can be painted on for stage backdrops and banners, cut up to make letters and shapes even splashed with glue and glitter!

It's the right weight and density to create all kinds of accessories but particularly good for ones with a practical use. Bags are the top choice for this hardwearing coloured canvas, along with purses and wallets and canvas shoes, these items have constant and repetitive use so the durability of the coloured canvas is ideal. The canvas can be cut and shaped into any design you want, sewn onto easily and it will withstand heat treatments like hot fixing rhinestones or transferring images.

This quality canvas is ideal for creating accessories, whether you intend to create a one off item for yourself, bespoke designs for your craft business or a large amount of the same design, we can help your designs along by adding extras if you need to. Metal eyelets inserted for drawstring bags or in canvas shoes for laces for instance, or clear pockets for ID cards in wallets and bags; we can do that for you just get in touch with our team. Whether this fabric is used for fun personal projects or practical designs, it's a creative essential, good thing we have 13 great colours to choose from, take note though as the fabric is not UV stable so in time the colours will eventually start to fade in prolonged sunlight.

- Versatile
- Great for schools
- Arts and crafts
- 13 colours available
- Durable
- Biodegradable
